

GUNJAN KELSHIKAR

Web Developer · Dual Engineering Student (Civil Engineering + Computer Science & Engineering)

gunjankelshikar2007@gmail.com | India | Open to Internships, Freelance Projects & Collaborations

PROFESSIONAL SUMMARY

Motivated engineering student pursuing Civil Engineering and Computer Science & Engineering, with hands-on experience building responsive websites, interactive browser games, and e-commerce interfaces. Skilled in HTML5, CSS3, JavaScript, Bootstrap, Python, Django, MongoDB, XAMPP/MySQL, and Microsoft Office tools. Strong problem-solving mindset with a focus on clean, responsive, and user-friendly digital experiences.

EDUCATION

Computer Science & Engineering

Civil Engineering

Currently Pursuing

Currently Pursuing

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap

Database / Tools: MongoDB, MySQL, XAMPP

Other: Prompt Engineering, Responsive Web Design, Browser Game Development

Backend / Programming: Python, Django

Productivity: Advanced MS Excel, MS Word

Deployment: Netlify, Git/GitHub workflow familiarity

SELECTED PROJECTS

The Hungry Hub — Food Ordering Website

Built a responsive food ordering website with menu browsing, cart functionality, and a clean user interface. Technologies: HTML5, CSS3, JavaScript, Bootstrap. Live: thehungryhub.netlify.app

Ojas Skincare — E-commerce Storefront

Developed a premium e-commerce interface with persistent cart functionality, multi-step checkout, smooth animations, and LocalStorage-based data persistence. Technologies: HTML5, CSS3, JavaScript.

Starship Wars — Browser Game

Created an action-oriented space shooter game with interactive gameplay using HTML5 Canvas and JavaScript. Deployed as a live web project.

Clash of Blades — Browser Game

Built a fast-paced combat browser game with interactive gameplay and smooth animations using HTML5, CSS3, and JavaScript.

2D Adventure Game — In Development

Currently developing a 2D browser game using HTML5 Canvas and JavaScript.

CERTIFICATIONS & TRAINING

- Web Development Certification — HTML, CSS, JavaScript, and modern web development practices.
- Advanced MS Excel Certification — Advanced formulas, pivot tables, data analysis, macros, and spreadsheet management.
- MS Word Certification — Professional document creation, formatting, templates, and advanced word processing.
- Professional Web Development Training — Structured training in HTML, CSS, JavaScript, Bootstrap, Python, and XAMPP.

STRENGTHS

Problem Solving · Creative Thinking · Self-Learning · Responsive Design · Practical Project Building · Adaptability

ADDITIONAL

Open to internships, entry-level web development roles, freelance projects, and collaborative opportunities. Portfolio projects include multiple live deployments and interactive web experiences.
